POWERFUL FEATURES
Made specifically for nonprofits

Fund Accounting

Create as many funds as you need to track money designated for a specific purpose, such as a grant, campaign, or building fund.

CRM Donor Tracking

Create detailed donor profiles with personal information, communication notes, and historical giving data.

Track Donor Progression

Monitor donor activity as they progress from potential donors to active, recurring donors.

990 Filing

Electronically file your annual Form 990-N or 990-EZ return with the IRS through Aplos.

Contribution Statements

Easily create contribution statements for all tax-deductible gifts for each donor with one simple report. You'll save a ton of time.

Online Donations

As you raise money online, create a purpose so your donors can easily identify what their money is supporting. Online donations are automatically tracked in the accounting.

PEX Prepaid Cards

Equip staff and volunteers to make authorized purchases using prepaid cards, including receipt capture, purchase approval requests, and spending and funding rules.

Fundraising Reports

Quickly generate reports to monitor your fundraising efforts and specific groups of donors who need more nurturing.

Custom List Builder

Filter your contacts to create custom lists of email addresses for specific email campaigns and mailings.

Budgeting

Manage your budget in Aplos so you can create budget to actual reports to track your financial health.

Recurring Donations

Allow your donors to give recurring donations and manage their account through a donor portal.

Accounts Payable And Receivable

Manage bills and send invoices so you can easily manage your cash flow. Plus, securely receive online payments for invoices.

Groups & Teams

Whether you're an Aplos user, committee member, member of a group or team, or you're hosting a meeting or event, Aplos provides the functionality to view a roster of group members, volunteers, or attendees so that you can quickly communicate with everyone, see contact info, and keep rosters and attendee lists up to date.

Events And Tickets

Accept registrations online for your next event and automatically track them in one place for stress-free event management.

Powerful Features

Advanced Accounting And Financial Reporting Tools

Upgrade for more granular reporting so you can harness the ability to see the exact data you need across your funds, departments, projects, and locations.

Aplos Core With
Customized Advanced Accounting Bundles

Fund Accounting

Create as many funds as you need to track money designated for a specific purpose, such as a grant, campaign, or building fund.

Budget By Fund Or Tags

Create reports that compare budget to actual for each fund or tag.

ACH File Export

Make ACH payments through your bank faster by exporting a payments file in NACHA format directly from Accounts Payable.

Project, Campaign, Or Department Reporting

Build custom financial reports by project, campaign, or department, simply and effectively.

Income And Expense Allocations

Set split percentages for income and expenses to automatically disperse your transactions across many accounts and/or funds.

Form 990 Reporting

Use tags to track income and expenses to quickly export a report to complete the annual Form 990 IRS return.

Custom Role Permissions

Grant limited access to users to see only the reports they need.

Multisite Capabilities

Manage multiple entities, such as preschools, church plants, or outreach ministries simultaneously. Call for pricing.

Multiple AP And AR Accounts

Conveniently select multiple assets to be receivables or liabilities to be payables.

Fixed Asset Tracking

Track your property and equipment, along with their appropriate depreciation schedules, to create automatic posting to your books.

Free Support!

We'd love to help in any way we can. Need help getting set up? Let us know! Our support is always FREE.

aplos®

BE CONFIDENT IN YOUR ACCOUNTING

Made specifically for nonprofits, Aplos is true fund accounting paired with your live support team.

Aplos Accounting	VS.	QuickBooks® Online

MADE FOR NONPROFITS

Aplos uses true fund accounting so you can always see the real balances of your funds no matter how you enter transactions in your bookkeeping. No need to open multiple bank accounts to track your fund balances.

MADE FOR BUSINESSES

When it comes to nonprofit needs, it lacks the basic features like fund accounting and donation tracking that are the backbone of all nonprofits.

EASY TO USE

Pull the reports you need without a workaround to get them. Aplos has numerous ready-made reports, plus the ability to create custom reports that fit the needs of your organization.

ASSEMBLY REQUIRED

Every day, the efficiency of your organization is negatively impacted with a complex setup, workarounds, and the inability to perform key operational functions.

FREE SUPPORT

We provide decades of combined experience when responding to your questions by messaging, email, or phone.

SKETCHY SUPPORT

QuickBooks® does offer support, but PC Magazine called their support "sketchy."

ACCOUNTANT-APPROVED

Our powerful platform fits the needs of large and small organizations, with experienced and inexperienced staff and volunteers.

UNHAPPY CUSTOMERS

One glance at the QuickBooks® forums and reviews online, and you will see why nonprofits have a hard time using QuickBooks® for their organizations.

> "Aplos' fund accounting structure helped us organize our accounting in much better consistency and compliance with nonprofit standards. QuickBooks forces you to twist and turn their product to fit with nonprofit practices."
>
> **David M.** — *General Director*

Many of our support staff come from nonprofit backgrounds.

Award-Winning Customer Success Team

We provide coaching and resources to get your nonprofit set up quickly, and guide the use of Aplos in the administrative functions of your organization.

☑ FREE for your staff and volunteers

☑ Real people with expert experience

☑ Receive timely responses by messaging, email, or phone

> "They (Aplos) saw a need for non-profits to have an easier way of doing their finances other than Quickbooks and met that need at a very affordable price, which is very important to nonprofits. Simplicity is important because often, the bookkeeper is a volunteer and does not have the experience required to use a cumbersome program like Quickbooks."
